The Kronos9 Story

Born from an interstellar cloud four billion years ago, 350 light years away from Earth in a dark and hostile atmosphere the star Kronos formed. The unusual and exuberant composition of the stars structure led scientists, who dared to study it, believe that it destroyed and ate its own orbiting planets.

After every planet Kronos ate it would become stronger and more dangerous. Thrusting violent comets into space, one of these comets crashed to Earth. Bringing with it a host of extra-terrestrial life who want the control of the comets power to themselves.

A secret task force was formed to control the increased UFO sightings at the crash site but what they found was that the comet contained a highly volatile core.

At the lab we managed to extract the strength and power from the intermolecular structure to create Neutro rubber, an extremely durable yet flexible material.

Only by chance when our lab dog Dexter stole a prototype of the Krono-pod and began to chew on the material with his powerful bite we realised the true bionic strength of our discovery. We further developed this material to create our Kronos9 super strong toy range perfect for tough and tenacious chewers.

Krono-Sphere

The Krono-Sphere contains a motion activated flashing LED light inside to create the ultimate tug toy. Interactive play between owner and pet is proven to help strengthen bonds for a happier pet.

Krono-Pod

The Krono-Pod is a robust ball for throwing, catching and play. For added fun check out our delicious paste recipe for adding to the toys hollow grooves.

Krono-Wave

The Krono-Wave is a durable treat release, fill with your pet's favourite treats for added mental stimulation. For added fun check out our delicious paste recipe for adding to the toys hollow grooves.

Out Of This World Strength

Krono-Eclipse

The Krono-Eclipse is equipped with an added layer of Neutro Rubber to increase durability and has a hollow centre for extra bounce. Our ball will fit in any standard ball launcher for stimulating outdoor play.

Dishwasher & UFO Safe

Floats On Water (and in outer space)

KRONOS9

The range is a collection of strikingly designed interactive toys including flashing tug toys, unconventional balls and treat releases perfect for providing mental stimulation to your pet as they play.

**Whilst Kronos (HD 240430) is a real star and scientists research does show evidence of the star devouring orbiting planets, some of our story is fictional. We encourage our followers to research the real Kronos star and tell us what you think could have happened!*
